

Become a part of the RSIS TA Program

****Neighborhood Network ****

- **A great chance to connect with and learn about the RSIS TA Program**
- **Directly support the Teaching Assistants in our community**
- **Meet and learn from the TAs in our school**

As a part of the Neighborhood Network, you will be included on a list of families at RSIS willing to give rides to TAs throughout the year. TAs do not have access to vehicles and rely on the school bus and RSIS families for transportation support. Giving a ride to a TA can be a great way to meet the TAs working in our school. A car ride can provide a quiet time to converse and learn about the TA's country, culture and experience in Minnesota. The connections you may make helping with transportation can grow into other social opportunities with the TAs. Being a part of the Neighborhood Network will give you a chance to learn about our important TA Program, and to build relationships with the young adults who enrich our students' educational experience!

Responsibilities:

- Provide contact information to TA Committee for inclusion on a Neighborhood Network List
- You are encouraged to reach out to TAs in your 'neighborhood' to get to know them and help the around the area
- Be willing to say yes when a TA contacts you about needing a ride

Benefits:

- Create a connection with and learn about a young adult from a foreign country
 - Car rides are a great time to converse and connect with TAs and for TAs to practice English
 - More exposure to the TA program and other RSI families
 - Expose your kids to the Spanish language in a setting outside of school
-

Please sign me up for Neighborhood Network, I would like to help provide rides to the TAs

Please contact me; I'd like to learn more about Neighborhood Network

Name(s): _____

Address: _____

Email: _____

Phone: _____

Completed forms can be returned to the school office
